

List of Events for the International Lead Poisoning Prevention Week of Action 20 to 26 October 2019

[Editor's note: The following registered events for ILPPWA 2019 were originally listed at https://www.who.int/ipcs/lead_campaign/events/en/ but this information is removed annually to make way for the next year's Events so The LEAD Group has adopted the habit of publishing the annual ILPPWA List of Events in *LEAD Action News*, after removing email addresses and ordering the Events (alphabetically) by country, followed by city/area, then by name of organization, then date order. NGO = Non-Governmental Organization]

WHO's Disclaimer: Inclusion of events on this site is for information purposes only and does not imply the endorsement of the World Health Organization. The posting of entries is at the discretion of the World Health Organization.

List of registered events

Albania, Tirana - EDEN Center NGO 20/10/2019-31/10/2019

Government-sponsored program or event (national or local government),
Community program or event,
School or student program,
Industry project or event,
Advocacy to policy makers,
Media engagement,
Social media activity

Title of event:

Lead poisoning

Brief description of event:

Short Report

Drafting a short report in order to have a clear pictures of the legislation in place and data related to lead in paint including and the future plans of the government.

The report will be draft by collecting data from the governments reports, desk research and most important from organizing meetings with different bodies of the government that are directly related to the issue.

Round table with all stakeholders

After the report we will organize a round table with with all involved actors such as line ministries, public health institutes, civil society organizations and academics. The purpose of the round-table will be to share information, relevant legislation in place, and what are the future steps of the government in order to control and minimize the impact of lead in paint.

Media outreach

During the ILPPW EDEN will organize a social media and media campaign in order to inform and aware general public newspaper and social media

Target audience for event:

Target groups:

- Inhabitants of Tirana
- General public
- Central governance
- Industry

What results do you expect from your ILPPW activities?

Strengthening or enforcement of an existing lead paint law,

Increased public awareness and support for eliminating lead paint

Related web site: <http://www.eden-al.org>

Armenia, Yerevan - Armenian Women for Health and Healthy Environment NGO 18/06/2019-31/10/2019

Community program or event,
Social media activity

Title of event:

Extending Awareness Raising Campaign on Lead in Paints in Armenia to Ararat and Armavir provinces

Brief description of event:

In 2019, AWHHE will focus on Armenia's Ararat and Armavir provinces to contribute to decreasing risks of exposure to lead in paint among children and women of child-bearing age. Retailers will be informed about health hazards of lead in paint and available alternatives. Local CSOs will urge their constituencies to demand safe alternatives at retailer shops. A presentation in Armenian language will highlight health and environmental risks for children and women of child-bearing age, informing about available alternatives. Retailers will get posters. Information on Lead in Paint Campaign in Armenia will be posted on AWHHE website and Facebook page.

Target audience for event:

in the two target provinces: local CSOs, retailers - shops selling paints, province administration

What results do you expect from your ILPPW activities?

Increased public awareness and support for eliminating lead paint,
Increased industry support for paint with no added lead

Related web site: <http://www.awhhe.am>

Australia, Hazelwood North/Morwell, Victoria - Hazelwood North Action Group Community Group 15/10/2019-26/10/2019

Community program or event

Title of event:

Community Information on Lead and Lead Smelter

Brief description of event:

Awareness of the risks of lead poisoning. Focus and case study from ULAB smelters, public health impacts and smelter workers and families. Includes EPA representatives. Two Town hall type events for public engagement. Advocacy to local policy/decision makers

Target audience for event:

Surrounding Community members and stakeholders, media, government representatives

What results do you expect from your ILPPW activities?

Awareness of lead poisoning from all sources (legacy paint, emissions, water) and advocacy to State and Local Governments

Australia, Melbourne Victoria - The LEAD Group Inc NGO (Charity) 28/10/2019

Community program or event,
Advocacy to policy makers,
Media engagement,
Social media activity

Title of event:

Interview of Elizabeth O'Brien by Lucinda Curran for International Lead Poisoning Prevention Week of Action (ILPPWA) 2019

Brief description of event:

Interview of Elizabeth O'Brien of The LEAD Group, by Lucinda Curran of EcoHealth Solutions (Melbourne Vic) ILPPWA 2019 covering what The LEAD Group has done for ILPPWA this year, that we need Australian legislation to support Australian Paint Manufacturers Federation (APMF) member companies who are already compliant with 90 ppm lead limit in residential paint, so that imported is also compliant; and what the public can do to ensure lead-safety for themselves, family and pets. Promote lead testing - both blood lead testing by doctors and environmental lead testing using LEAD Group Kits from www.lead safeworld.com/shop

Target audience for event:

YouTube users (as the interview will soon be uploaded there by Lucinda Curran), Australian Government, Building Biologists, individuals (parents, renovators, pet-owners, shooters, hobbyists, alternative medicine users, rainwater tank owners and people with new leaded brass plumbing fittings like taps, valves and pumps, etc).

What results do you expect from your ILPPW activities?

Strengthening or enforcement of an existing lead paint law,
Increased public awareness and support for eliminating lead paint,
Increased industry support for paint with no added lead,
More blood lead testing and more environmental testing being done in Australia and overseas

Increased public awareness and support for eliminating lead paint

Related web site: <http://www.vladars.net/sr-SP-Cyrl/Vlada/Ministarstva/MZSZ/Pages/default.aspx>

Cameroon, Douala - SDGsCameroon NGO 20/10/2019-25/10/2019

Community program or event,
School or student program,
Social media activity

Title of event:

Civil society and stakeholders working together with the population to eliminate lead Paint in the economic capital of Cameroon

Brief description of event:

The plan of action this year will be focusing on key categories: despite the existence of the lead law in Cameroon, a lot needs to be done in terms of open data evidence base results and public awareness.

- 1) Advocating for the implementation and evaluating open data progress report awareness of 21 September 2017 existing lead law in the society (Use of questionnaires to determine public opinion of the lead law).
- 2) Advocating for preventive measures against the negative impact of lead paint in institutions (primary schools, secondary schools, Professional Institutions, Churches and Play grounds in 3 municipalities).
- 3) Evaluate risk assessment exposure of lead in children.
- 4) Submit open data evidence base reports to authorities in accordance with WHO, UNEP and UNEA4 resolutions.

Target audience for event:

Children and youths, women of child-bearing age, Pregnant women, Men, Teachers, Business men, religious leaders, CONCERNED NGOs and governmental agencies.

What results do you expect from your ILPPW activities?

Strengthening or enforcement of an existing lead paint law,
Increased public awareness and support for eliminating lead paint,
lead exposure risk assessment baseline data in target areas determined and documented

Related web site: <http://www.sdgscameroon.org>

Cameroon/Cameroun, Yaoundé - Centre de Recherche et d'Education pour le Développement (CREPD) NGO 24/10/2019-25/10/2019

Advocacy to policy makers,
Social media activity

Title of event:

Beyond national Regulation_Build up long term national capacity to end lead poisoning

Brief description of event:

CREPD believes that enactment of national regulation to phaseout lead paint is the most urgent action to cut lead input in the society from freshly manufactured lead paints, one of the recognized most important source of lead exposure in developing countries; but it is not the end of the fight. Building strong and sustainable national capacity is required to effectively reduce or eliminate lead exposures from old paints and other sources (dirty waste battery recycling practices, substandard aluminium cookingware, unintentional point sources etc.). To reach there, decision and policy makers need to sensitized and engaged. CREPD will take the opportunity of the 2019's WoA to reach out to decision and policy makers in Cameroun.

Target audience for event:

1. Relevant government ministries
2. Paint industry representatives
3. Media

What results do you expect from your ILPPW activities?

Raise the decision maker awareness on the need to set up a national monitoring and education programme on lead poisoning prevention

Guinea / Guinée, Conakry - Carbone Guinée NGO 20/10/2019-26/10/2019

Advocacy to policy makers

Title of event:

MINI ATELIER D'ADOPTION D'UNE REGLEMENTATIONS DES PEINTURES AU PLOMB

Brief description of event:

Pour la séance de travail en atelier, Carbone Guinée réunira au Ministère en charge de l'environnement des acteurs autour qu'il a choisi pour cette édition 2019 de la semaine d'action internationale pour la prévention de l'intoxication au plomb de l'IPEN.

Les travaux de l'atelier se dérouleront en sessions plénières autour de communications sous format Power Point et d'un film documentaire centrés sur la thématique « l'urgence de l'adoption d'une réglementation nationale pour l'objectif Zéro Pb dans la peinture d'ici 2020 ». Toutes les communications seront suivies de discussions et

d'échanges pour aboutir à des propositions adoptées par les participants de manière consensuelle. Lors de l'atelier, une réflexion sera portée sur une analyse de la stratégie d'adaption de

l'interdiction ou l'élimination progressive du plomb dans la peinture d'ici 2020 afin que des pistes d'amélioration soient proposées.

objectifs de l'atelier

Objectif général :

→ Présenter un modèle de réglementation sur la limitation de la teneur du Plomb dans la peinture à 90 ppm et plaider pour son adoption...

Objectifs spécifiques

- Faire des communications sur les problématiques en matière du plomb dans la peinture dans les radios communautaires surtout le coût de l'inaction.
- Organiser un atelier de plaidoyer et de sensibilisation auprès des parties prenantes cibles (autorités gouvernementales compétentes, producteurs et distributeurs des peintures en Guinée, OSC, association des consommateurs, médias ...)
- Faire une communication sur les textes de lois sur produits chimiques en Guinée pratiquement les métaux lourds.
- Doter les acteurs des outils de plaidoyer sur le coût de l'inaction de l'impact du plomb

Target audience for event:

Les parties prenantes sont mieux outillées et se sont engagées à entreprendre un plaidoyer pour l'adoption d'une réglementation interdisant la peinture au plomb en Guinée à la limite de 90 ppm.

PUBLIC CONCERNÉ

Cadres des ministères de la santé de l'environnement, industriels, professionnels de santé, universitaires, juristes, médias, groupes d'intérêt public, les élus locaux et nationaux, les partenaires techniques et financiers, distributeurs et importateurs de peintures

What results do you expect from your ILPPW activities?

Increased public awareness and support for eliminating lead paint

Title of event:

Media Awareness and Lobbying Campaign in the Direction of Driving Jordan Adopt a National Lead Free Paint Legislation.

Brief description of event:

LHAP intends to carry out a media awareness and lobbying campaign to place pressure on the Ministry of

Health to adopt a lead paint free national legislation. The brochure printed during ILPPWA 2018 will be used in the media campaign as a reference and resource material on the status of mercury and the socio-economic and environment impacts. The campaign will include the following components:

1. LHAP facebook group and sharing through other groups using the brochure and other IPEN materials for circulation.
2. Aggregate and gather support of information dissemination through the sister organizations from the civil society across the country to publish the content of information for education purposes and lobby.
3. Organize a community consultation in Amman where media and journalists are invited. The meeting will also have different speakers to include parliamentarian (Commission of Health and Environment), Ministry of Health, Ministry of Environment, a journalist (a journalist lady who has conducted an investigative journalism on lead in paint), a lawyer to present a draft regulation prepared by LHAP stemming from other countries legislation and the guidelines developed by IPEN and a paint industry representative.
4. Consult media personnel (radio and TV) to spare some time to talk about lead in paint and the importance of having legislation during which different persons from different sectors will be invited to speak.
5. Set a session in all LHAP activities and projects during which the issue is presented and the brochure is circulated.

Target audience for event:

the project will target: environmental, health and supportive CSOs in Jordan, media (social, print, radio and TV), Member of Parliament (Commission of Health and Environment), paint industry including the chamber of industries and commerce, and the government authorities mainly the Ministry of Health and the Ministry of Environment.

What results do you expect from your ILPPW activities?

Development of a new lead paint law,
Strengthening or enforcement of an existing lead paint law,
Increased public awareness and support for eliminating lead paint,
Increased industry support for paint with no added lead

Eliminate Lead Paint by 2020 - the mandate of SMEs

Brief description of event:
SRADeV Nigeria will plan its activity around the SAICM GEF project and the industry (Paint Manufacturers Association) 2019 coatings show and exhibition event in October 28-29 (the show is the largest coatings event in West Africa featuring manufacturers/suppliers of various paint raw materials, manufacturers of paints etc). In line with this, SRADeV plans to hold a joint media event/statement with PMA and SON to focus on: Eliminate Lead Paint by 2020 - the mandate of SMEs. This is to target the SME sector aimed, to raise awareness with SMEs on lead in paint and facilitate their access to lead-free raw materials during the event. The press media event will hold a day before or first day of the coatings show. During the coating exhibition, SRADeV team also plan to conduct paint market information collection through profiling of SME stands and collecting information about production, consumption, import and export as well as a listing of paint manufacturers and vendors, volumes, and specifics on lead additives and alternatives. The findings will feed into the baseline information for the lead paint Nigeria situation. SRADeV also plans to host some TV and radio events.

Target audience for event:
Small and medium scale enterprises in the production of paints, Paints Manufacturers Association (PMA).
